

Wood Sign Making

Artisan Craftsmanship

WL Concepts has earned a reputation for versatility and for the extensive range of its designed products. From logo-design, custom lettering, carved or painted commercial signs, residential address signs, to truck lettering, banners and Plaques, we are able to accommodate the needs of business enterprises, clubs, municipalities and residential customers.

Whether it be a hand-carved residential surname, a painted business logo, or a three-dimensional sculpted image, each of our signs translates concepts into art forms. As one drives through the many towns whose homes, businesses, boats, trucks and eateries are graced by a WL Concepts design, one is drawn to signs that not only name and help to define purpose, but also reflect the character, taste and pride of their owners. A WL Concept-design creates powerful first and lasting impressions: impressions that convey messages of who one is, what one values, and the understood appreciation of quality craftsmanship.

- ✓ Pubs, Wineries, Restaurants
- ✓ Towns & Villages
- ✓ Farms
- ✓ Residential, Homes & Cottages
- ✓ Electric, LED, Misc.

if you are a Government or military customer, we are a GSA approved provider on Government Products for an index of our carved wood wall plaques and signs. We have performed work for the Army, Navy, Air Force, Marine Corps, and Coast Guard, federal, state & city/county governments (including police and firefighters).

Wood signs can be simple sandblasted or routed signs, or can be elaborate 3D carved signs. They can look very rustic or can be made of fine woods (e.g., mahogany or cherry) and finished like expensive furniture. We can make elaborate 3D carvings as appliques or carved into the wood substrate, with stains and laquer coats showing the natural beauty of the wood.

Whether you require a house sign or a larger commercial sign, we have a large range of wooden signs to suit all situations. You can choose the timber, the size, the style of lettering and the finish to create an individual sign exactly to your taste. Call WL Concepts today at 516-565-5151 for a multitude of wooden sign solutions.
